

## Project Proposal

### Proposal 1

#### Podcast

I have always listen to funny podcasts to uplift me or cheer me up. One that I always listen to is called “the bald and the beautiful” and it’s hosted by two of my favourite drag queens, Trixie Mattel and Katya Zamolodchikova. They are given a topic or a guest and they just chat. They use such crude humour and jokes that really make you laugh. I will record this in a quiet place and edit sounds and effects into it.

#### Concept:

I will pretend that I have my own podcast with an intro. Every week I will have a guest come in and we will talk about a random subject. The premise is that me and guests will talk about random subjects in a fun and quirky way.

#### Approach:

When the podcast starts, I will have a music introduction with the name of my podcast. It will all be funny and less serious with sprinkles of serious notes in it.

#### Intention:

The intent of this is to make the audience laugh, but also educate people on certain topics in the world.

#### Types of sound sources

- Recording of human voices.
- Sounds that I find on copy-right free websites.

- Sounds that I record myself (ie.nail tapping, sparkles, chimes)
- Intro sounds made from a program like audition.
- It would be approximately 5 minutes, maybe less. I've already found a potential person to interview and we can bounce back and forth pretty good.

I want to make it as unique as possible, so I will try and make my own sounds and modify any sounds I find online.
